Amazing Creative and Positive Ready Mind

Yemisirach Tamirat

Web Developer

FULL STACK DEVELOPER | EXPERT KNOWLEDGE IN REACT.JS

Motivated and dynamic Web Developer with a keen focus and experience in web application development and web layout design, with a strong work ethic and innate ability to adapt to ever-changing and challenging environments. Accomplished with effective collaboration skills, team-building capabilities, and leadership in diverse and multifaceted operations. Passionate about developing and applying technologies enables strategies in comprehensive problem solving, and creative troubleshooting.

Summary

- Over 3+ years of experience in developing and designing user friendly, cross browser complaint web sites, and User Interface (UI) applications using HTML5, CSS3, Bootstrap, JavaScript, jQuery, Node.js.
- Developed user interface by using the React.js SPA development and used React-Router to turn it into Single Page Application (SPA).
- Strong experience in Client Side designing and validations using HTML, CSS and JavaScript.
- Used HTML5 elements like video, audio and canvas in making the website interactive.
- Design developer and test HTML5, CSS3, JavaScript and React.JS that meets accessibility and web browser standards for website.
- Proficient in developing Single Page Applications (SPA) using React.JS and NodeJS.
- Extensively worked with Version Control Systems like Perforce, GIT and GitHub
- Good practice with the Node.JS application in building the minified versions.
- Experienced in Agile Methodologies and SCRUM Process.
- Experience in database development skills like MySQL
- Worked in providing solutions for deployed JavaScript products.
- Experienced in using version control tools GIT to keep track of development stages and deployment stage.
- Used the best practices of SDLC as well as Agile methodologies.
- Hands on experience in using React.JS with ES6 features to develop reusable components and using Redux to enable predictable state change and improve maintainability of the code.
- Excellent interpersonal abilities, Communication skills, time management and team skills.

#Skills

Front-End

JavaScript ES6 / jQuery

HTML / XHTML

CSS /Jsx

Back End

Node / NPM

REST API / Express

MySQL/PHP

Source Control

GitHub

SCRUM / Agile

MVC / XML / JSON

Frameworks

React

Bootstrap

CMS /Other

Shopify/ Adobe Photoshop

AutoCAD/Etabs

Microsoft word/Office

Personal Projects

- Built a [Netflix replica](#) using React.js and Firebase, which lets users create an account, post images, and comment on other posts.
- Build a responsive website for [Apple replica](#) using React.js and integrated Apple's YouTube channel with the website using API. View code on GitHub.
- Authored Zoom replica using Node.js. when two or more users can go online and meet face to face.
- Built [Amazon Replica](#) using React JS, Node JS, Express, and Firebase database.

CORE COMPETENCIES

Creative Problem Solving | Communications | Business Operations | Quality Assurance | Project Management | Enterprise Web Application Development | Web Layout Design | Stored Procedures | Software # Handled comprehensive website development including collaborating with a talented team to better streamline operations.

- Successfully carved out PSD design and convert to custom themes per client specifications.
- Ensured proper conversion of Bootstrap themes into well-structure React Components
- Drove routing and serving of Express.js Module.
- Effectively designed, deployed, and integrated high profile database using MySQL.
- Oversaw comprehensive deployment of the platform as needed.

EDUCATION

BACHELOR of SCIENCE | civil Engineering | Aksum University

BOOTCAMP | Full stack Developer | Evangadi Networks

SPECIAL INTEREST | Study software engineering, especially AI Technology

FACE for Family Agriculture Argo Industry

Role: Jr. Full Stack Developer

March 2022– present |

Responsibilities:

- Responsible for web development in gathering requirements, design, development, testing and deployment.
- Extensive experience in creating style guides, best practices and setting UI standards for enterprise/consumer applications using Bootstrap.
- Developed single page application for the web pages and mobile application using Node JS, Bootstrap, HTML5, CSS3

- Used Postman API to get convenient, visual display of query results.
- Implement the JavaScript frameworks such as Node.JS for React.js Framework
- Documented the entire project, which contains detail description of all the functionalities.
- Worked through cross browser compatibility issues with layout and styles for all new CSS that was implemented.
- Utilized the Node.js to do the relevant backend.
- Used Grunt for task automation and GIT for version control.
- HTML5 and CSS3 latest tags are used to design the web pages and HTML local storage web applications are used to store data.
- Working with Bootstrap twitter framework to Design single page application.
- Styling pages with CSS3 and developed JavaScript for user interfaces.
- Used Bootstrap framework and media queries for developing customizable and responsive web design for compatibility with different platforms and screen sizes.
- Developed Web API using Node.JS and hosted on multiple load balanced API instances.
- Well experienced in developing multi-tenant applications using latest technologies and frameworks such as HTML5, CSS3, Bootstrap, REST Web API, Node JS

Role: Freelance Front-End Developer

June 2020 – 2021 |

Responsibilities:

- Designed the Web application layout and forms using HTML, CSS, and JavaScript.
- Responsible for transforming design mock-ups to W3C standards compliant HTML pages using HTML, CSS.
- Performed client-side validations using JavaScript.
- Worked with Chrome extension Postman REST Client, an HTTP client for testing web services.
- Responsible for setting up React.js framework to achieve data binding between HTML5 and JavaScript objects.
- Knowledge of rendering large data sets on the application view using React.JS
- Utilized MySQL to easily store recipe reviews and review comments in a single recipe document
- Developed Web API using Node.JS and hosted on multiple load balanced API instances.
- Worked extensively on building the JavaScript profiles for the requirements which are given by the customer.
- Statistics Inference Designed the functionality of the website and worked as a backend Greater Theoretical developer using MySQL.
- Connected server and database to update data information with Node.js.
- Good experience in using Scaffolding tools like GIT and Npm.
- Developed single page application by using React.js backed by MongoDB and NodeJS.
- Implemented best practices to JavaScript codebase, develop new functionality and create new layouts, teach advanced JavaScript techniques to the team.
- Convert UI/UX design to highly scalable and responsive web application with cross-browser compatibility.
